🎓 EDUCATION

COMPUTER SCIENCE ENGINEERING BACHELOR

09/2024 – 04/2028

VSB COLLEGE OF ENGINEERING TECHNICAL CAMPUS

CGPA: 8.44

📄 PROFILE

Motivated Computer Science Engineering student with proficiency in Python, Java, and C, and hands-on experience through academic projects. Eager to secure an internship where I can apply my programming skills, enhance problem-solving abilities, and gain real-world exposure in software development.

🧠 SKILLS

- **PROGRAMMING LANGUAGES** – Java, Python, C, HTML
- **DATABASES** – SQL
- **WEB DEVELOPMENT** – HTML, CSS, JavaScript
- **TOOLS** – Git/GitHub, Visual Studio Code

📁 PROJECTS / OPEN-SOURCE

SIMPLE-PLAYSTATION 🔗

Python

A simple Python project that demonstrates basic PlayStation-related features and functionality. Built for learning and experimentation, this project focuses on improving programming skills through a fun and practical example.

RecordMate 🔗

Website

A hyperlocal student-to-student platform for coordinating help with physical college record books. Requesters post record-writing tasks; nearby providers can accept them, chat, and get rated once the task is complete.

🏆 CERTIFICATES

- **Java for Beginners** 🔗 – Completed Nov 2025 | Java fundamentals and object-oriented programming
- **HTML** 🔗 – HTML5 - The Language | Wingspan Issued July 2026 Completed training in HTML5 fundamentals, including semantic page structure and modern web-development concepts.
